

PRESS RELEASE

Syston Cable Technology Corporation (SCT) is located in Southern California and is a subsidiary of Zhengdao Wire and Cable in China, which was established to better serve existing and new customers located in North and South America. For the last eight years, we have supplied private labeled cables in North America to premier manufacturers and distributors. The establishment of an office here will bring us closer to our customers and will enable us to better service their cable requirements in a timely manner. We also have developed a Syston brand cable product line, which is a high-quality and cost-effective product line for the distribution channel and supported with a locally maintained warehouse inventory.

We manufacture a complete portfolio of high quality Network Cables, Coaxial Cables, Multi-Conductor Security & Control Cables, Home Theater Audio Cables, Fire Alarm Cables, HVAC & Thermostat Cables, Irrigation, Tracer & Lighting Cables, Access Control and Multimedia Cables. All the cables are manufactured in a wide variety of AWG conductor sizes, shielding & indoor/outdoor configurations and jacketing materials including plenum, riser and general purpose. Applications for these cables include Voice & Data, Networking, CATV, CCTV, Audio, Security, Fire, Temperature Control, Underground Irrigation & Lighting and Access Control.

Our manufacturing facilities are certified to ISO 9001:2008, ISO 14001:2004 & OHSAS 18001 standards. These standards assure that our business practices are implemented to ensure efficiency, quality, safety and continuous improvement. We offer a lifetime warranty for both performance and quality. All of our products are 100% tested for defects and electrical, mechanical and environmental performance per UL & ETL standards. All products meet the European Union's restrictions of our hazardous substances (RoHS) requirements & are sunlight resistant.

Each product requires detailed specifications and strict raw material selection by engineers, followed by professional production management and in-plant and in-process and final quality control inspection and testing. Our cables are manufactured with innovative equipment and technology at our state of the art facility to the highest quality standards and are recommended to ensure optimum system performance. Our cables meet and exceed top quality performance standards and are sold at very competitive prices.

At Syston Cable Technology Corporation, we value our customers and uphold a high-level of integrity, professionalism for our company and for our products. We pride ourselves on providing the highest quality product while maintaining cost efficiency around the globe. Our mission is to make a larger global impact by significantly expanding our reach and customer base across North America & South America. Syston is committed to maintaining values that shape the way we do business. Our top priority is upholding our responsibilities to our customers, suppliers, Syston associates and to the communities we serve around the globe.
